PROFESSIONAL SUMMARY

Data Engineer who designs and builds **PySpark and Databricks ETL pipelines** that turn raw, messy data into validated, star-schema models and analysis-ready datasets. Strong in **advanced SQL** with CTEs and window functions, **data quality validation**, and **batch processing**, and delivers the serving layer through **Power BI** data models and automated reporting workflows. Works across **Google BigQuery, GA4, Looker Studio, AWS, and Azure**. Combines engineering discipline with analytical thinking to build pipelines that business teams can trust and reuse.

TECHNICAL SKILLS

Data Engineering: PySpark, Databricks, ETL Pipelines, Data Pipeline Development, Distributed Data Processing, Batch Processing
Data Modeling & Quality: Data Transformation, Data Modeling, Star Schema, Data Validation, Data Quality
Languages: Python, SQL
Databases: MySQL, MongoDB, Google BigQuery
Cloud: AWS (S3, EC2), Microsoft Azure (Blob Storage, Data Factory)
Analytics & BI: Power BI, DAX, Google Analytics, GA4, Looker Studio, Google Data Studio, Microsoft Excel
Data Processing: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis
Tools: Git, GitHub, Jupyter Notebook

PROJECTS

QuickCommerce360 - Distributed ETL & Analytics Pipeline **2026**
Python, SQL, PySpark, Databricks, Power BI

- Engineered a distributed ETL pipeline on Databricks with PySpark DataFrames that ingests, cleans, validates, and transforms **50,000+ raw order records**, cutting processing time by **~80%** compared to single-machine Pandas.
- Designed a **star-style schema** and wrote optimized SQL using multi-table JOINs, GROUP BY aggregations, CTEs, and window functions to produce delivery SLA breach, repeat-customer, and segment revenue metrics.
- Served modeled data to **5 Power BI dashboards** covering revenue, customer, delivery, and marketing ROI with DAX measures, slicers, and drill-through, reducing manual reporting effort by **~75%**.

Retail Sales Analytics - End-to-End Data Pipeline **2026**
Python, SQL, MySQL, Power BI

- Built a SQL-driven data workflow in MySQL across customer, product, and order tables using JOINs, CTEs for multi-step revenue aggregation, and RANK and ROW_NUMBER window functions for sales ranking.
- Developed a Python and Pandas cleaning pipeline handling null values, type casting, and deduplication, **cutting manual data prep time by ~70%** and feeding analysis-ready tables into Power BI.
- Delivered interactive Power BI dashboards with KPI cards and regional filters that expose top products, regional gaps, and customer purchase trends.

EXPERIENCE

Data Analyst Intern | Dyashin Technosoft, Bengaluru **Mar 2026 - Aug 2026**
Tech Stack: SQL, Python, Pandas, Power BI, DAX

- Transformed and analyzed six months of regional sales transaction data with SQL JOINs, CTEs, and window functions, uncovering **three underperformance patterns** presented to business teams.
- Prepared analysis-ready datasets in Python and Pandas using correlation analysis, distribution analysis, and outlier detection to ensure reliable reporting.
- Built Power BI dashboards with KPI cards, slicers, and drill-through filters for weekly reporting, **reducing manual reporting effort by 35%**.

Machine Learning Intern | Take It Smart OPC Pvt Ltd, Bengaluru **Sep 2025 - Feb 2026**
Tech Stack: Python, Pandas, Jupyter Notebook, Matplotlib, Seaborn

- Cleaned and transformed **five real-world datasets** with Python and Pandas, improving data quality and consistency for downstream analysis and reporting.
- Automated recurring reporting workflows with Python and Jupyter Notebooks, **reducing ad-hoc stakeholder requests by 30%**.
- Communicated findings to non-technical stakeholders through Matplotlib and Seaborn visualizations.

EDUCATION

Master of Computer Applications (MCA), SJB Institute of Technology **Dec 2024 - Jul 2026**
CGPA: 8.55 / 10

Bachelor of Computer Applications (BCA), PES College, Mandya **Sep 2021 - Aug 2024**
CGPA: 8.11 / 10

CERTIFICATIONS

- Deloitte Australia - Data Analytics
- HP - Data Science and Analytics
- IBM - Data Analytics Basics
- NPTEL IIT Madras - Information Security
