AKSHAY GOWDA A M

Bengaluru, India | +91 8088538345 | amgowda74@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Data Analyst with 1+ year of internship experience delivering SQL- and Python-driven analytics, PySpark/Databricks data pipelines, and Power BI dashboards for business decision-making. Skilled in data extraction, cleaning, exploratory data analysis (EDA), and KPI reporting, with working knowledge of AWS and Azure cloud data services. Proven record of reducing manual reporting effort by up to 75% and delivering analysis-ready datasets for cross-functional stakeholders. Certified by Deloitte, HP, and IBM in Data Analytics.

TECHNICAL SKILLS

Languages: Python, SQL

Data Analysis: Pandas, NumPy, Data Cleaning, EDA, Data Wrangling, Statistical Analysis, Correlation Analysis, Customer Segmentation

Big Data & ETL: PySpark, Databricks, Distributed Data Processing, ETL Workflows

Cloud: AWS (S3, EC2), Microsoft Azure (Blob Storage, Data Factory)

BI & Visualization: Power BI, DAX, Power Query, Excel, Matplotlib, Seaborn, Streamlit, Dashboard Development

Databases & Tools: MySQL, MongoDB, Jupyter Notebook, Git, GitHub, Report Automation

EXPERIENCE

Data Analyst Intern · Dyashin Technosoft, Bengaluru *Mar 2026 – Aug 2026*

Tech Stack: SQL, Python, Pandas, Power BI, DAX

- Wrote SQL queries using JOINs, CTEs, and window functions to analyze six months of sales transaction data across regions, identifying three underperformance patterns presented to business teams through Power BI.
- Built Power BI dashboards with KPI cards, trend charts, slicers, and drill-through filters for weekly business performance reporting, reducing manual reporting effort by 35%.
- Performed exploratory data analysis using Python and Pandas, including correlation analysis, distribution analysis, and outlier detection, to deliver clean, analysis-ready datasets for business reporting.

Machine Learning Intern · Take It Smart OPC Pvt Ltd, Bengaluru *Sep 2025 – Feb 2026*

Tech Stack: Python, Pandas, Jupyter Notebook, Matplotlib, Seaborn

- Cleaned and transformed five real-world datasets using Python and Pandas, improving data quality and consistency for downstream analysis and reporting.
- Automated recurring reporting workflows using Python and Jupyter Notebooks, reducing ad-hoc stakeholder requests by 30% and accelerating decision-making.
- Created data visualizations using Matplotlib and Seaborn to communicate analytical findings clearly to non-technical stakeholders.

PROJECTS

QuickCommerce360 – Business Analytics Platform *Python, SQL, PySpark, Databricks, Power BI · 2026*

- Built a distributed ETL pipeline on Databricks using PySpark DataFrames to extract, clean, and transform 50,000+ raw quick-commerce order records, reducing processing time by ~80% versus single-machine Pandas processing.
- Wrote optimized SQL queries (multi-table JOINs, GROUP BY aggregations, CTEs, window functions) to compute delivery SLA breaches, repeat-customer rates, and revenue contribution by segment.
- Modeled cleaned data into a star-style schema and built 5 Power BI dashboards (revenue, customer, delivery, marketing ROI) with DAX measures, slicers, and drill-through, cutting manual reporting effort by ~75%.

Retail Sales Analytics – End-to-End Analytics Pipeline *Python, SQL, MySQL, Power BI · 2026*

- Designed a SQL-driven analytics workflow across customer, product, and order tables in MySQL using JOINs, CTEs for multi-step revenue aggregation, and window functions (RANK, ROW_NUMBER) for sales ranking.
- Built a Python/Pandas data-cleaning pipeline (null handling, type casting, deduplication) that cut manual data prep time by ~70%, feeding analysis-ready tables into Power BI.
- Built interactive Power BI dashboards with KPI cards and regional filters to surface top-selling products, regional performance gaps, and customer purchase trends for business decisions.

EDUCATION

Master of Computer Applications (MCA), SJB Institute of Technology *Dec 2024 – Jul 2026*

CGPA: 8.55 / 10

Bachelor of Computer Applications (BCA), PES College, Mandya *Sep 2021 – Aug 2024*

CGPA: 8.11 / 10

CERTIFICATIONS

Deloitte Australia – Data Analytics | HP – Data Science and Analytics | IBM – Data Analytics Basics | NPTEL IIT Madras – Information Security
